

REMARKS

By this Office Action, the Examiner has required restriction to one of the following species of vector under 35 U.S.C. §121:

- a) adenovirus
- b) adeno-associated virus
- c) herpes virus

An election of one of the following patentably distinct species of transgene is also required:

- a) CFTR
- b) Factor 8
- c) protease inhibitor
- d) insulin

Responsive to the restriction requirement, Applicant elects to prosecute vector species a) adenovirus and transgene a) CFTR **without traverse**. Applicant submits that pending claims 1-21 are readable on the elected species.

Dated: 8/28/06

Respectfully submitted,
